

SURE SEAL

Sure Seal Series 899-892 Butterfly Valves

Sure Seal Series Butterfly Valves offer superior service for demanding applications for the chemical and food processing industries. Sure Seal valves are designed and manufactured with the highest standards in the industry and are guaranteed to exceed your application expectations. Sure Seal, part of OPW Fluid Transfer Group, stands behind all of the industrial valve products sold and serviced.

Sure Seal Series 899-892 (PATENTED)

A Superior Sanitary Valve for the Chemical and Food Processing Industry

Sizes 1"-24" 125/150 ANSI Interchangeable with Keystone Figure 999 and 992

Patent #5207411. Every valve is tested to 110% of full pressure rating.

The Difference Between Our Encapsulated Valve and Theirs

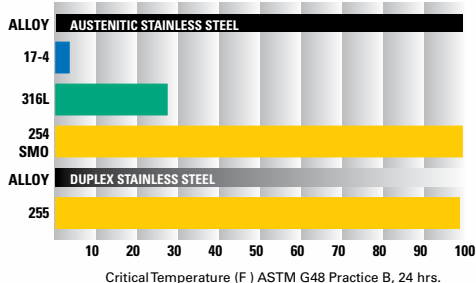

Without Sure Seal's Superior Encapsulated Design, Product and/or cleaners can enter into the stem hole and attack the seat and stem.

- 1 PTFE Encapsulation extends through stem hole to PTFE O-Seal top and bottom to assure positive seal to seat and patented O-Seal for total isolation of metal parts.
- 2 PTFE lining extends through stem hole to PTFE O-Seal for total isolation of rubber seat.
- 3 Total PTFE and elastomer covering of disc for both chemical resistance and sanitary food processing.
- 4 Slim disc for maximum flow.
- 5 Sure Seal's one piece disc and stem is standard 25-5 stainless steel which is several times more corrosion resistant and stronger than other manufacturers 316 stainless steel.
- 6 Precision machined stems top and bottom to assure the proper seal and alignment to the ertalyte bushing with patented O-Seals for total secondary seal.

Corrosion Resistance

ASTM - DISC STEM COMPARISON IN TEST OF FERRIC CHLORIDE

Strength

ASTM - MINIMUM MECHANICAL PROPERTIES

The chemical and food processing industry needed a truly sanitary valve and with Sure Seal's patented O-Seals they got just that. As the O-Seal seals at the back side of the seat top and bottom and also at the stem entry top and bottom it forms an absolute seal making it the truly sanitary valve on the market today.

OPW Fluid Transfer Group (OPWFTG), part of Dover Corporation (NYSE:DOV), is comprised of market-leading operating companies, each dedicated to designing, manufacturing and distributing world-class solutions for the safe handling and transporting of hazardous bulk products. In addition to these companies, OPWFTG has manufacturing plants in North America, Europe, Brazil and India; and sales offices in Singapore, and China.

Throughout the world, OPWFTG companies are hard at work ensuring the safe processing, loading, transporting and unloading of hazardous bulk products and safeguarding against costly petroleum and chemical spills, tank overfills and fugitive vapor emissions. Whether your need is in the chemical plant, at the terminal loading rack, or outfitting a fleet of rail tank cars, cargo tanks or dry-bulk trailers, OPWFTG systems set the standard for safety, performance and peace-of-mind assurance in the most rigorous and demanding applications. If the safe, profitable handling of hazardous liquids and dry bulk commodities such as gasoline and diesel, chlorine, chlor-alkali products, LPG, acids, cement, flour and starch, among others, is your concern, trust OPWFTG.

Chemical & Industrial Processing Market Unit

- Food Processing
- Chemical Plants
- Petroleum Loading Stations
- Steel Processing, Pulp & Paper
- Waste Water Treatment
- Pharmaceutical
- Breweries
- High-Purity Liquids
- Ethanol Processing
- Biodiesel Processing

Rail Market Unit

- Pressure & General Purpose Rail Tank Cars
- Dry Bulk Railcars
- Ethanol Rail Tank Cars
- Diesel
- Biodiesel

Cargo Tank Market Unit

- Gasoline & Diesel
- Dry Bulk
- Ethanol
- Biodiesel
